Hello! I am the founder of Conscious Culture & end the Schism Ministries where mission is to increase individual & collective awareness, education and respect-ability and unity to reduce redundancy, increase transparency & accountability (aka: the FAST framework).
My Plan are to:
① In person door to door petitioning for public health statements & Alternative Options
② establish online fund-raising & transparent discussion forum
③ establish emergency prep, common sense backup support and archive & self-sufficiency from the top down a few days in self-sufficiency
④ establish a spotlight program to foster real news (local, independent, non-profit) reporting and broadcasting collective efforts
⑤ establish public commons, make available a state of fact label published with local libraries & museums for community led education & DIY research assistance
All while engaging in the "Transparency Initiative", with you as my alibi via 2/1/ audio, video, location surveillance techs such as the latest in developed people-tracked cell phone, external hardware, local and online Data Storage & access

THE TRANSPARENCY INITIATIVE
Hello Google & Friends, I need your help as an alibi and witness to enter, explore and open-source the collective conscious/conscience/Super Ego. I. Recently, I have been subject to: false narrative, defamation, fraud, extortion, outright lies, denials and toxic make-belief. I was hoping you would view my work on YouTube, Facebook and Archive.org and consider partnering with me for a "Real News" (local, independent, non-profit) Reality TV Show, some livestream & some edited into brief episodes: reminiscent of an invented Truman Show, where one or multiple characters record & broadcast public matters in public spaces. The Plot will allegedly revolve around the investigation into the mysteries of the Soul/conscience, its seeming lack at times when revealing collective crimes against Humanity, while discovering the beautiful and often unheard stories of real efforts many are making without the incentive of Power, money or greed. This would accomplish several things:
1. an unprecedented historical, cultural record
2. a positive, humane, heartfelt change to corrupt out-throat Reality TV
3. a real time, interactive, open-sourced Trust accounting design idea
4. an example on Transparency for world leaders
5. my own mental health scenario & ⑥ Protection from Deep State/Military Assets

Subatomic Quarks and Perspective

As far as I'm concerned, or knowledgeable of, there exist subatomic particles that make up each electron, neutron and proton. These are called divided into 6 up, down, charm, strange, bottom top

Now consider this

If you observe a clock rotating in typical clockwise fashion, to the right, for every second ticking. If you observe this from above, the clock is laying flat on the table, ready to be hung up on the wall

But it's a see through clock, and so is the table

If you look at the same thing from under the table, it looks different

If you look at it from a perfectly level view it will change yet again, into a 2 dimensional line

In 6 directions, you can get 6 different perspectives

4 directions level

One above one below

(sorry I have no money or audience to incentivise this any further)

CATEGORICALLY FALSE HATE SPEECH & VICE VERSA

- Your claim of Hate speech is categorically False given:
1. My sole purpose and advertisement has been to offer collaboration services in anyway possible to any and all groups on earth [REFERENCE: "END THE SCHISM MINISTRIES" (www.archive.org/details/@endtheschism) est. 2023, a part of Conscious Culture est. 2017]
 2. You have throttled my own ability to collaborate by your false language interpretation/translation and projection of your own inner evil racist society, hatred and disbelief in world peace.
 3. You, who do not believe in world peace (as evidenced by your current cities operating structure and holistic footprint).
 4. You, who do not see life as love.
 5. You who work to separate but then project it onto me your racist, classist and fascist authoritarian society.
 6. My thoughts are not yours. I am a willing and grateful servant, you are the racists/classists caste system I am working to demolish.
 7. By your persistent secrecy and ignorance. You are the True Hate Criminal restricting
 - a. self representation and communication, further restricting opportunities for
 - i. understanding
 - ii. knowledge and
 - iii. cooperation via education
 - b. "You operate under "out of sight out of mind", I am telling you to see and to collaborate with simple fun projects to create self sufficient micro communities no longer under the overbearing eye of evil: Sauron / CIA / conflict interest governments/disbelievers

Rule 1
Remember the human. I am here to initiate a conversation on creating community and belonging not for attacking marginalized or vulnerable groups of people

Everyone has a right to use Reddit free of harassment, bullying, and threats of violence. Communities and users that incite violence or that

- o promote hate based on identity or vulnerability
 - i. (this is the Origin of the Justice System, to demolish some identities and vulnerabilities (but where is the public consensus)? The consent??? Oh yeah, it's hidden behind the lack of free speech))
 - o Reddit is filled with fake accounts, bots, paid government actors, detractors and anonymous trolls, there is no real community or belonging, it only exists in your head. In the real world you can see, there is no real community or belonging (in the 1st world countries they rely on goods made by other real communities in countries with much less). Your very society has been breaking Rule 1 since it's inception, by its very definition - the aggregate of people living together in a more or less ordered community.
 - A society can be diagnosed as authentic, pseudo, chaotic or emptiness by a simple 2d (4 quadrant) analysis

VICE VERSA

WHERE FOR pretend like your society and government do. That you are using peaceful speech. Is a complete and utter lie. There is very little evidence of peace in the current colonial history books, even after their mass editing and falsification. They are always operating under their own selfish interests towards acquiring more territory and resources at the expense of the other parties (mother earth and all her future children).

WHERE AS, although your tone might sound beautiful, or pleasant. It's filled with lies. Although you have the art of performance and stage magic, we will not fall for your false love. You politicians have failed the public time and time again. Your words may be crafted in a certain form, but you do not actually work for world peace. You neglect the world with every breath you take.

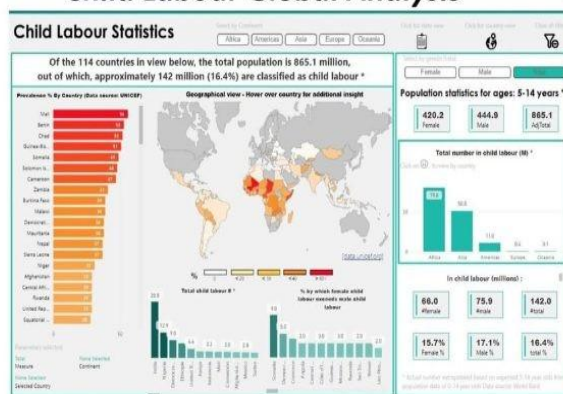

WHERE AS, YOU claim I am a hate speech artist. I would like to say my behavior and attempts have been well made, in a variety of forms. To point out that it is not me, but YOU who are the true hate speech artist if you are not collaborating with me towards world peace, you are showing your own hatred, bias, bigotry, and intolerance.

Child Labour Global Analysis

- I. Child labor is not a negligible social phenomenon in China; about 7.74% of children aged from 10 to 15 were working in 2010, and they worked for 6.75 hours per day on average, and spent 6.42 hours less per day on study than other children.
- II. Children in Russia are found in the worst forms of child labor, including in work on the street and in commercial sexual exploitation. (3a-5a) 3a. U.S. Department of State. - III. About 8.3 million U.S. workers in 2022 were unauthorized immigrants, an increase from 7.4 million in 2019. The 2022 number is essentially the same as previous highs in 2008 and 2011. <https://www.pewresearch.org/short-reads/2024/07/22/what-we-know-about-unauthorized-immigrants-living-in-the-us>
- IV. Held Hostage by Coyote Canada - Undocumented workers are also vulnerable to forced labor in US agriculture. These workers, the vast majority of whom are from Latin America, are typically smuggled or trafficked over the border with Mexico by coyotes, who are in some cases also their labor brokers or employers. Because of their undocumented status, these workers are by nature vulnerable to abusive labor practices and forced labor. In some egregious cases, coyotes hold workers hostage either until their families pay additional money or until they provide a certain amount of labor. <https://verite.org/wp-content/uploads/2016/11/HELP-WANTED-A-Verit%C3%A9-A9-Report-Migrant-Workers-in-the-United-States.pdf>

Why this petition matters

As a concerned citizen, I am deeply troubled by our reliance on the global supply chain for basic necessities. This dependence not only exposes us to potential contamination and disease (as witnessed during the COVID-19 outbreak) but also supports unethical labor practices in countries where modern slavery is prevalent. Our current system fails to protect us during emergencies such as disease outbreaks or blackouts, leaving many vulnerable and without access to essential resources like water, heating, food, clothing, and shelter.

To address this issue, we must require our city to research, develop and maintain self-sufficient backup systems(1,2) that can meet citizens' basic needs during major disasters without compromising our local environment or health. These systems should be designed with the capacity to function independently of external aid or resources.

According to the United Nations Office for Disaster Risk Reduction (UNDRR), cities that invest in disaster risk reduction measures can prevent significant losses both in terms of lives and infrastructure (UNDRR Report 2019). Moreover, a study published by the National Bureau of Economic Research indicates that increasing local self-sufficiency can reduce vulnerability to global supply chain disruptions (NBER Working Paper No. 27439).

By mandating these changes at a city level we are not only safeguarding our community against future crises but also taking an ethical stand against exploitative labor practices abroad.

Please sign this petition urging our city officials to prioritize local self-sufficiency through the development of emergency backup systems.

Thank you for your consideration.

(2) backup systems include but are not limited to: clean water, food, shelters and essential tool production and delivery systems not reliant on electrical or petroleum powered mechanisms. Some possibilities include but are not limited to harvesting natural gasses from waste systems and incorporating gravity plumbing wherever possible.
